

8' X 14' PORTABLE GUARD SHACK

GET 40% MORE SPACE THAN OUR STANDARD GUARD SHACK!

Now, Mobile Modular Portable Storage is offering a limited quantity of 8' x 14' Guard Shacks to their portable storage solution product line in select locations. Ideal for monitoring secure access points, the portable Guard Shack is convenient for entryways and exits of industries such as petrochemical refineries, construction sites, military bases, state and city sites, airports, manufacturing plants, and smaller commercial locations. Standard features include 3 windows with a 270-degree view for right and left side visibility, insulation, and an HVAC unit for interior comfort. Our Guard Shacks and portable offices are the perfect solutions when you need protection for your business and from the elements. Also, we have a full fleet of available storage containers when you need space now.

This Relocatable Structure Includes

- HVAC with heat and air conditioning
- Security bar(s) on window(s)
- Lockable door handles
- Forklift pockets to facilitate movement
- Puck lock receiver on the man-door for added security
- External hardwired motion-detector light
- Phone and data access
- 125-amp panel box
