

CHOOSING BETWEEN

Office Containers

VS

Office Trailers

Available in a variety of sizes including 10', 14', 20', 24', and 40'.

- Insulation, heating, and air conditioning for comfort.
- Electrical access points.
- High-security features including locks and window bars.
- Additional options like folding tables/chairs, dry erase/cork boards, and offices with restrooms.

- Stackable design with forklift pockets for easy on-site mobility.
- No setup required, offering faster delivery and immediate usability.
- Durable construction, designed to withstand various weather conditions.

Sizes Available

Key Features & Customization Options

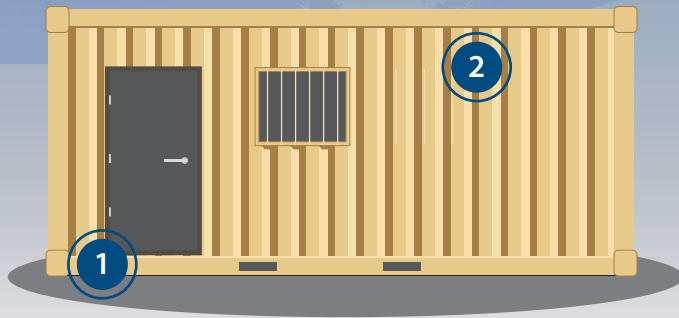

Benefits

Flexible floorplans with the option for larger sizes and optional restrooms.

- A broad selection of office furniture and breakroom accessories.
- Custom exterior features to match current aesthetic.
- Option to add ramps, awnings, and stairs.

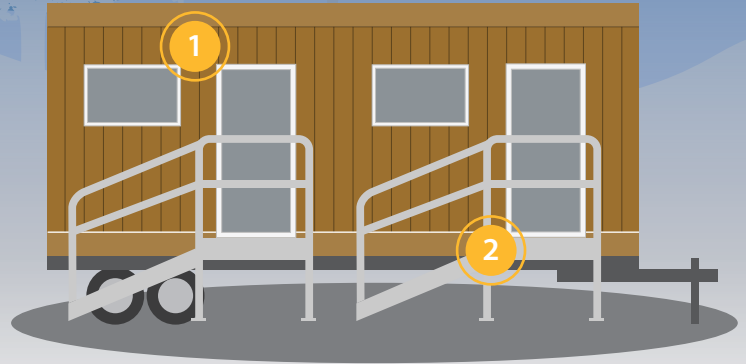

- Built off-site during site prep for swift completion and minimal disruption.
- Temporary and permanent buildings available, allowing you to find the right solution for your budget.
- Modular construction is green, controlling the environment in which the buildings are built resulting in less material waste.

Office Container

- 1 Ground Level Access
- 2 Corten Steel Exterior

Office Trailer

- 1 Exterior often paneled with vinyl
- 2 OSHA Approved Stairs/Ramps

Cost-Savings

Shipping container offices generally offer a more affordable alternative to trailers due to minimal setup and maintenance costs.

Customizability

Office trailers offer more flexibility in floorplans and sizes, while shipping container offices offer robust security and weather resistance.

Setup and Use

Shipping containers are ready for immediate use with no setup, whereas office trailers may require minimal site preparation.

Conclusion:

Your choice between shipping container offices and office trailers should be guided by specific needs such as size requirements, site conditions, and the level of customization desired. Both options are efficient, cost-effective, and can be tailored to serve various temporary workspace needs.
